

**High-resolution study of selected Dansgaard- Oeschger events and Heinrich event 4 42,189–33,393 cal. years BP**

*Gravity core JM11-FI-15GC from Fugløy Ridge, northeastern Faeroe Islands Margin*

**Björg Jónsdóttir**

Figure 1 on page 2 has a wrong caption. This error is also in the List of Figures on page V.

This is the correction:

*The approximate position of the core JM11-FI-15GC is marked by a big black dot. The figure shows a simplified modern circulation of oceanic currents across the Greenland-Shetland Ridge (modified figure from Rasmussen et al., 1996a).*
